Rehabilitation Hospital
Hershey, Pa.

Scope:
Underground piping, roof
drainage system, all natural
gas piping, new water heaters,
medical gas compressor and
associated piping

Patient room headwall.

Underground piping work.

Our Project Team, from left to right: Victor Vascellaro, Jeff Ream and Dave Arndt

Project Profile

Penn State Hershey Rehabilitation Hospital

Hershey, Pa.

Through a partnership with Penn State Milton S. Hershey Medical Center and Select Medical, a national leader in post-acute care, this hospital offers the very latest in rehabilitative care in Central Pennsylvania.

The plumbing contract for a significant addition to this facility was awarded to James CRAFT & Son. Our scope of work included the underground piping, roof drainage system, all natural gas piping, new water heaters, the medical gas compressor and associated medical gas piping to each patient room headwall, new water heaters, and all hot and cold water lines.

Our Project Team

Project Estimator: **Victor Vascellaro** has only been a member of our estimating staff for three short years, but has risen to a lead estimating role due to his prior years of experience and knowledge. Victor has outstanding attention to detail and possesses the unique ability to consider the broad perspective of an overall project.

Project Manager: **Jeff Ream** started in the field with our company in 1994 as a sheet metal foreman. Jeff's knowledge of our trade and warm people skills made way for him to ascend quickly through the ranks of our firm, where today he holds a lead role in our project management department.

Project Superintendent: **Dave Arndt** began as a plumbing apprentice in 1995. Showing advanced skills and knowledge throughout his apprenticeship years propelled him to national recognition for his accomplishments. Dave is now one of our most trusted superintendents and takes on all jobs, large and small, with diligence and passion.
